What We Learned

This week we talked about exercise and what happens to our body when we exercise, such as our heart rate goes up and it gets a little harder to breath and talk the faster we run or the more we jump. We tried doing sit ups and push ups, they found it hard to pull themselves up to do a sit up; however they found doing a push up was rather easy. We also talked about healthy foods and made a plate of healthy foods...they tried to convince me that chocolate cake was a healthy food and it should go on our plate....ha ha.

We are continuing to work on letter sounds, rhyming words and letter and number writing. They are all working very hard on trying to write the letters in their names. We also worked on clapping out two syllable words, this is new to them and they are catching on quickly.

Everyone is doing so great with using their kind words and helping their friends, I'm very proud of them all. It is so wonderful to see them help each other clean up the toys when it is time to move on to a new activity or help each other complete a task that might be a little difficult for a friend but easy for them.

Our Halloween Party was so much fun, the kids loved the pizza. We played Halloween Bingo and worked on our fine motor skills by making sticker monsters and decorating candy corn. We also read a Halloween book and made predictions of what would happen next in the story. Thank you all for donating items to help make this a wonderful event for the kids.

I hope everyone has a fantastic weekend!

A Few Notes

*Please don't forget to complete and return the ASQ forms that were sent home.

*Those who still need to turn in their medical forms, please turn them in by 11-15-24

Up Coming Events

November 11- Programs on Wheels A Cultural Experience
