- ❖ Create a Barong hat
- ❖ Kayoi Kusama dot art activities

EPS

The Week Ahead

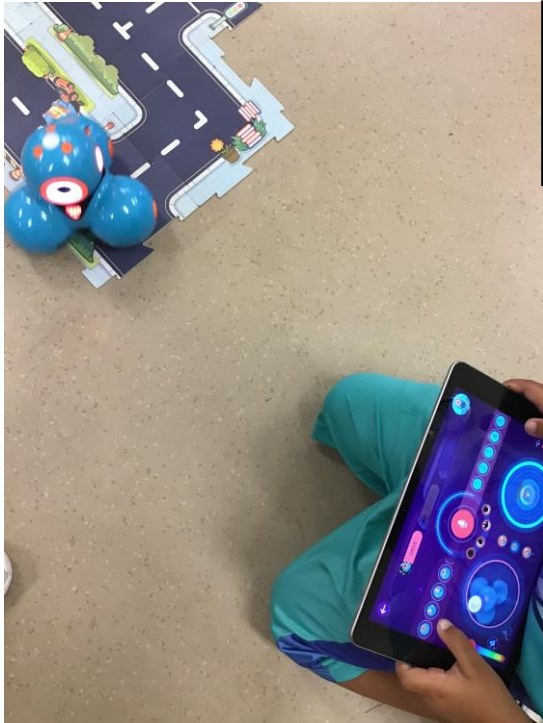

We are visiting Asia this week! Asia is an amazing place and we have so much in store for us, we are ready to get going and explore these awesome countries!

We built our own Eiffel Tower!

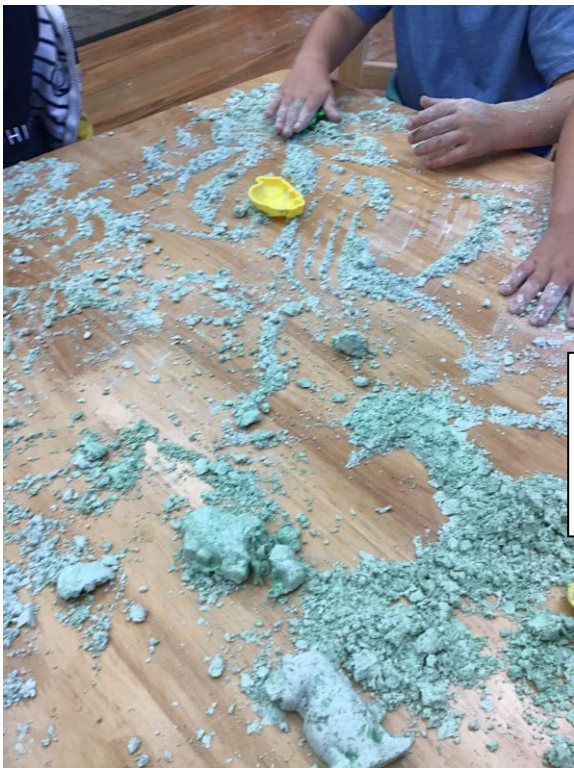

On Monday we begin our week in Armenia. Here we get to visit the Megerian Carpet Museum and the Erevan History Museum. Tuesday we are off to China! In China everyone is able to learn about and visit the Great Wall, see the Forbidden City, and even learn about the Terracotta Army! Next is India, where the class can visit the Taj Mahal, and learn about Rangoli sand art. Thursday we move into the Philippines! There we can visit Rizal Park, and explore the beautiful waters surrounding this wonderful place. We finish off the week on Friday by heading to Japan. In Japan we get to see Mount Fuji, and learn all about Sumo wrestling. What a fun week we will have!

See the next page for some pictures of fun things we did last week!

Here we are learning how to control our Dash bot, and other fun coding skills!

We are working on our fine motor skills by trying to pick up and sort our animals.

Ms. Malika taught us how to make our own playdough! Now we are making dinosaur fossils with it!
