What We Learned

This week we learned about the different types of jobs one may work in a grocery store. We did a matching game between jobs and tools needed. Your children got to create "money". They turned our room into a grocery store and pretended our shelves were our aisles. We got to place different sections throughout our store. They played the roles of the different jobs to see if we could keep a grocery store running. Played a literacy/fine motor game by flipping pancakes with different letters and sounding them out. Your children played a sorting game by different categories. We measured different round objects to see which string would fit. They rolled dice and counted out different foods. We added and subtracted beads to our bracelet to integrate math. Working on our fine motor to help with our writing skills. Completed Week 15 of Heggerty and Read It Again.

Reminders

November 28/29th
• NO SCHOOL
THANKSGIVING
