

# KG PREP

NOV. 11-15TH

## What We Learned

Your children worked in groups to create a sign for their grocery aisle (produce, dairy, meat, frozen items). We played I-Spy finding different foods and deciding which food group they belong to. They got to shop for groceries and checkout at the register. We got to create our own grocery store, deciding where foods go and in what aisle. For payment we discussed different coins, bills and cards, a transaction of goods for money. The Cincinnati Museum stopped in for a visit and taught us about culture. Learned about the musical instruments in Peru, kimonos and koi fish in Japan, face masks from Mali in Africa. Completed Week 14 of Heggerty and Read It Again.
