The Week Ahead

We are visiting the Middle East this week! Since we only have a week we won't get to explore every single country, but we are trying to see as many places as we can. Here's to an amazing week full of adventure!

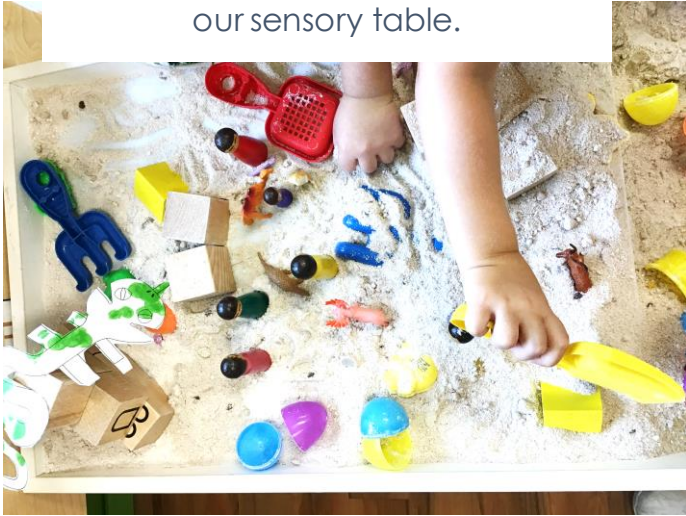

Our classroom dream-catchers!

This week we are starting off in Uzbekistan! Our wonderful teacher Ms. Malika knows a lot about Uzbekistan, and has so much to teach us about wonderful places like Bukhara Registan, Samarkand, and the Amir Timur Museum. On Tuesday we move to Iran where we get to visit the Valley of the Stars and Chogha Zanbil. The students will also get to learn about Persepolis! Wednesday, we get to move into Saudi Arabia. There we get to visit the King Abdul Aziz Historical Center and Al Masmak Fort. The students get to learn all about Pakistan on Thursday, and we get to explore the Phander Lake, along with Lahore Fort. We finish off the week in Jordan, where we visit the Dead Sea! It should be such a fun-filled and exciting week!

Each week the students are challenged to find these places on the map. With our class being so young, the teacher plays songs and shows us where they are in really fun ways!

See below for pictures of some of the activities we did last week!

Having fun with different toys in our sensory table.

Building pyramids using toothpicks and marshmallows.

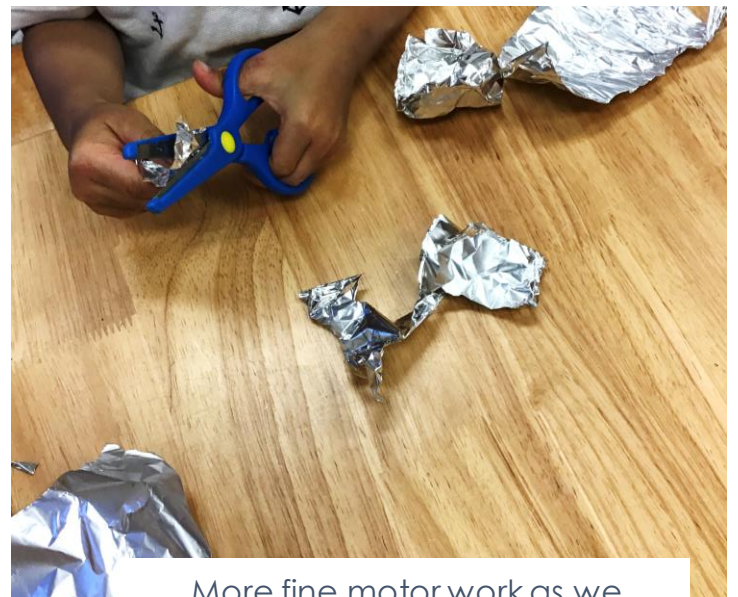

Making lemurs out of toilet paper rolls – so much fun!

Dissolving the bath bombs that we made!

Getting creative with our building materials as we work on our fine motor skills.

More fine motor work as we practice using our scissors.
